CAREER OBJECTIVE

Motivated Life Sciences postgraduate (M.Sc. Plant Science) and **CSIR-NET JRF qualifier (AIR 57)** with a strong academic foundation in plant biology, stress physiology, and molecular concepts. Seeking the position of **Junior Research Fellow** in the DAE-BRNS project on powdery mildew (*Erysiphe cruciferarum*) resistance in Indian mustard (*Brassica juncea*) at ICAR-NIPB, to contribute to plant pathology and crop-improvement research while developing hands-on expertise in molecular biology, plant breeding, and next-generation sequencing.

ELIGIBILITY HIGHLIGHT

CSIR-UGC NET — JRF Qualified, All India Rank 57. Meets the essential qualification for the post (Post-graduate degree in Life Science with NET; selected through CSIR-UGC NET national eligibility test).

EDUCATIONAL QUALIFICATIONS

Examination / Degree	Board / University	Subject	Year	Marks / CGPA
M.Sc.	Banasthali Vidyapith	Plant Science	2023	8.41 CGPA
B.Sc.	Banasthali Vidyapith	Bioscience	2021	8.44 CGPA
Class 12 (CBSE)	BSM High School, Bahadurgarh	Science	2017	74.6%
Class 10 (HBSE)	Navyug Shiksha Niketan Sr. Sec. School, Rohtak	—	2015	9.00 CGPA

MASTER'S DISSERTATION

Effects of Lead on Photosynthetic Performance in the Leguminosae Family

- Conducted a comprehensive, critical literature review on lead-induced **abiotic stress** and its impact on photosynthetic efficiency in leguminous plants.
- Developed strong grounding in **plant stress physiology**, photosynthesis mechanisms, and plant response to environmental stressors — directly relevant to plant pathology and stress-resistance research.
- Demonstrated ability to source, synthesize, and critically analyze scientific literature and consolidate findings into a coherent research narrative.

TECHNICAL KNOWLEDGE

Molecular Biology & Genomics (theoretical / conceptual): PCR & gel electrophoresis, DNA/RNA extraction principles, fundamentals of molecular biology, next-generation sequencing (NGS) concepts.

Plant Sciences (theoretical / conceptual): Plant breeding principles, plant stress physiology, photosynthesis and plant biochemistry.

Note: The above reflect strong theoretical understanding from postgraduate coursework; keen to translate this knowledge into hands-on laboratory and field practice.

TRANSFERABLE & PROFESSIONAL SKILLS

- Scientific literature review & synthesis
- Effective communication
- Critical analysis & report writing
- Time management & organization

LANGUAGES

English • Hindi
